

# COVID-19 Impact on Nursing Homes

NAHDO Annual Meeting – August 18, 2020

The logo for Project Patient Care is displayed on a dark blue rectangular background with a white border. The text "PROJECT PATIENT CARE" is written in large, white, bold, sans-serif capital letters, stacked vertically. The word "CARE" is on the bottom line, followed by ".ORG" in a smaller, white, sans-serif font to its right.

# Nursing Homes – The Perfect Storm....Sadly

First evidence of looming danger – Kirkland

# Nursing Homes – 15,000+ In U.S.

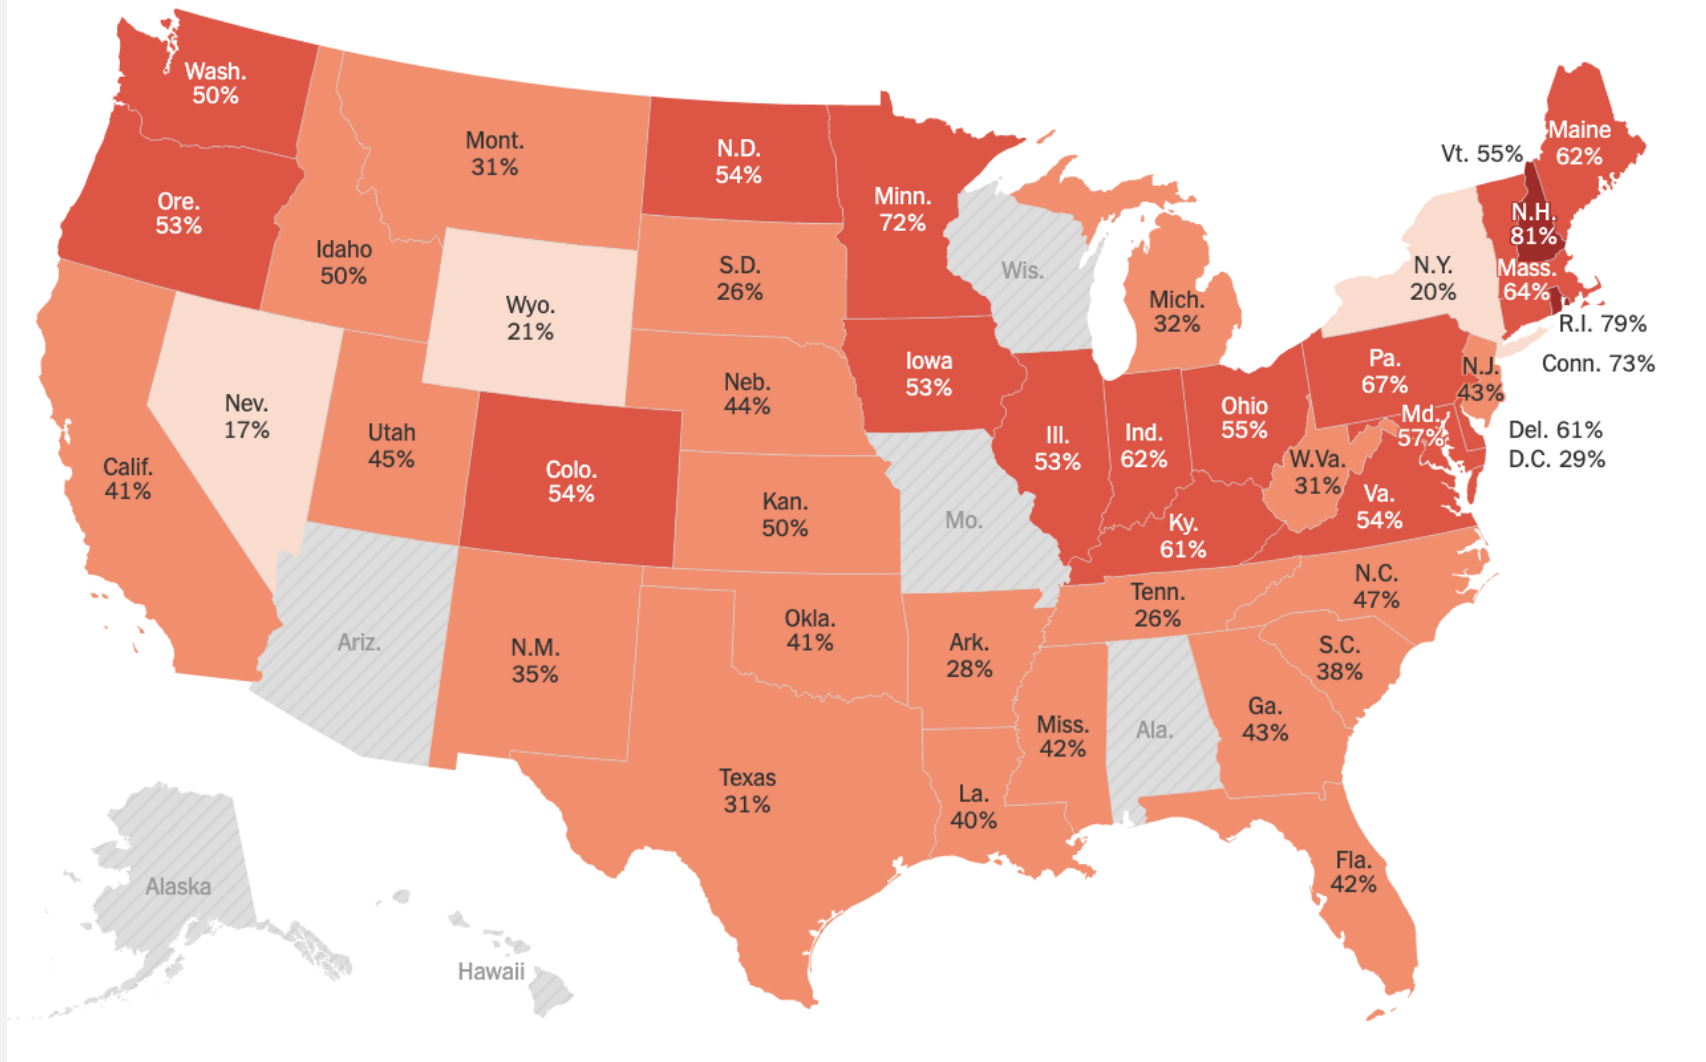

- Congregate Housing – close proximity for meals, activities, rest
- Lack of training or support on infection prevention
- Lack of Personal Protective Equipment
- Lack of Testing Kits
- Staffing Shortages – exasperated with COVID-19
- Lockdown – Inability for Resident Advocates

### In 20 states, at least half of deaths are linked to nursing homes.

Share of state's deaths linked to long-term care facilities

0 25 50 75 100% Insufficient data

NY Times, August 13, 2020

# CMS Collecting Data

- Weekly Reporting – fines for non-reporting
- PPE – Sufficient for day and week
- Testing - Results
- Staffing – Sufficient for day and week
- Deaths – Residents and Staff
- Positive COVID-19 – Residents and Staff

***Responses are driving action in many states***

# *Remember these U.S. numbers.....COVID-19*

**43% – Percent of all COVID-19 deaths that were nursing home residents**

**5.36% - Percent of entire nursing home population that has died from COVID-19**

**159 – number of day most nursing homes have been on lockdown**
