Agency for Healthcare Research & Quality
540 Gaither Road, Suite 2000
**Rockville, MD 20850**
www.ahrq.gov

The Agency for Healthcare Research & Quality (AHRQ) is a federal agency whose mission is to produce evidence to make health care safer, higher quality, more accessible, equitable, and affordable, and to work with others to ensure that evidence is understood and used. AHRQ produces MONAHRQ®, which is innovative, free, website-generating software that enables any organization to create a public or private website quickly and easily with understandable, evidence-based health care reports for consumers, providers, policy makers and others. MONAHRQ can generate reports on quality of care, health care utilization, and estimated costs and cost-savings related to the quality of care, using data about hospitals, nursing homes and health professionals. MONAHRQ provides an efficient and cost-effective way for organizations to understand and share information with others about the quality, safety, affordability and patient experience in health care, to facilitate transparency and spur improvement.

American Health Information Management Association

230 North Michigan Avenue, 21st Floor
Chicago, IL 60601
www.ahima.org

Founded in 1928, AHIMA is globally recognized as the premier resource for health information. Representing more than 101,000 health information professionals around the globe, who are the stewards of healthcare data and information, AHIMA is supporting them through education, training, certification, and advocacy. As healthcare needs evolve, AHIMA provides healthcare professionals with the skills, tools, and resources to lead in the areas of healthcare data analytics and informatics. AHIMA also offers the only health data analysis certification, Certified Health Data Analyst (CHDA), in the industry. The CHDA certification affirms a practitioner's expertise in acquiring, analyzing, and interpreting data into accurate information that that can drive clinical and administrative decision-making in real time.

Center for Disease Control & Prevention

315 E. Montgomery Avenue
Spokane, WA 99207
www.cdc.gov/nchs

CDC works 24/7 to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

CDC increases the health security of our nation. As the nation's health protection agency, CDC saves lives and protects people from health threats. To accomplish our mission, CDC conducts critical science and provides health information that protects our nation against expensive and dangerous health threats, and responds when these arise.

Databay Resources
500 Commonwealth Drive
Warrendale, PA 15086
www.databayresources.com

DataBay Resources is a national provider of health care market analysis, data cleansing, community needs/healthcare utilization forecast, and data warehousing tools supporting healthcare providers to better understand their community health needs, market position, and manage profitability.

Our products provide valuable, tailored healthcare market intelligence software, reporting services, and analysis tools to drive improved market and financial positions of hospitals, health systems, and ambulatory surgery centers. DataBay delivers a robust data cleansing solution, inclusive of rules checking, data correction workflows, and data warehouse automation via our CheckNet product. Reporting, ad hoc query, and dashboard capabilities are provided through our NavigateNet solution allowing our customers the ability to generate complex analytics through and easy to use web interface. Our Population Health Analytics platform helps identify community need and projected utilization of healthcare in a service area.

FAIR Health, Inc.
575 Fifth Ave., 22nd Floor
New York, NY 10017
www.fairhealth.org

FAIR Health is a national, independent not-for-profit corporation whose mission is to bring transparency to healthcare costs and health insurance information through comprehensive data products, consumer resources and support for scientific and economic research on medical and dental care. FAIR Health uses its database of billions of billed medical and dental services to power a free website that enables consumers to estimate and plan their medical and dental expenditures. The website also offers clear, unbiased educational articles and videos about the healthcare insurance reimbursement system and can be private-labeled by organizations that wish to provide engagement tools to their stakeholders. With its professional staff of experts in healthcare, statistics, technology and communications, FAIR Health strives to offer accurate, consistent and timely information to all stakeholders in the healthcare system.

Freedman HealthCare
29 Crafts Street, Suite 470
Newton, MA 02458
www.freedmanhealthcare.com

Freedman HealthCare helps diverse clients address health care reform though strategy and project management of claims data, transparency, performance improvement, and health policy projects. Since 2005, our team of experienced senior consultants, analysts and project managers combine quantitative and qualitative research with a deep understanding of the economic, political, and clinical forces shaping healthcare. FHC assists stakeholders in adopting policies and programmatic changes that can drive cost

containment, better patient outcomes, and improved quality of care. Clients benefit from FHC's objectivity, expertise, market knowledge, and creative problem solving. The team's commitment to healthcare improvement echoes through FHC's concentration on mobilizing health data to leverage change.

The firm's experience with clients across the nation -- with varying political climates, legislative requirements, and approaches to reform – leads us to develop client- and state-specific solutions. FHC's approach emphasizes a collaborative stakeholder process, rigorous data quality, and transparent analytics and reporting. FHC brings unparalleled expertise in All Payer Claims Databases, providing strategic and implementation support to 14 projects nationwide.

Health Care Cost Institute (HCCI)

1100 G Street NW, Suite 600
Washington, CD 20005
www.healthcostinstitute.org

Launched in 2011, HCCI is a non-partisan, non-profit organization with the goal of providing accurate and unbiased information about health care utilization and costs. HCCI currently holds data for over 50 million Americans in one of the most comprehensive claims datasets in the country. HCCI is currently the only national Qualified Entity entitled to hold all of the Medicare data.

 HCCI pursues it goals through numerous efforts:
- Public reporting on cost and utilization trends, state benchmarking and topical issue briefs
- Academic Research Partnership Program with major universities
- Data Infrastructure including a secure data enclave, technical support, and Guroo.com

HCCI engages with states, universities, government agencies and actuarial associations to better inform the public about the U.S. health care system. HCCI welcomes NAHDO members who want to collaborate with HCCI around price transparency, our secure data enclave, public reporting, standards, and benchmarking.

For more information about HCCI and its initiatives, contact Scott Leitz at 952-936-7433.

Healthcare Cost & Utilization Project (HCUP)
540 Gaither Road
Rockville, MD 20850
www.ahrq.gov/research/data/hcup/index.html

The Healthcare Cost and Utilization Project (HCUP) is a family of healthcare databases and related software tools and products developed through a Federal-State-Industry partnership and sponsored by the Agency for Healthcare Research and Quality (AHRQ). HCUP databases bring together the data collection efforts of HCUP Partners to create the largest collection of longitudinal hospital care data in the United States, with all-payer, encounter-level information, enabling research on a broad range of health policy issues.

Island Peer Review Organization (IPRO)

1979 Marcus Avenue
Lake Success, NY 11042
www.ipro.org

IPRO is a national, not-for-profit organization providing a full spectrum of healthcare assessment and improvement services that foster more efficient use of resources and enhance healthcare quality to achieve better patient outcomes. IPRO's core services include data collection and validation; program oversight and monitoring (including fraud & abuse); utilization review and quality assurance; performance measure development; value-based purchasing and payment reform infrastructure support; and clinical performance improvement. IPRO has over 50 government contracts with more than 30 state agencies, the District of Columbia and Puerto Rico, as well as federal agencies including CMS and the Veterans Administration. For more information about IPRO, please visit www.ipro.org or contact Edison A. Machado, Jr., MD, MBA, V.P. of Strategic Planning, 516-209-5457.

JEN Associates, Inc.

5 Bigelow Street
Cambridge, MA 02139
www.jen.com

JEN Associates and NAHDO are both celebrating their 30th anniversaries this month! As a health data firm, JEN specializes in data validation, standardization, linkage, and secure hosting to support effective data analysis. If you'd like a Zero-Footprint Solution to prepare and protect your data, please arrange a time to talk with us about JEN's secure, scalable hosting of health services data. We can set up the secure environment and get out of your way – letting you build the client relationships and do the analytical work. In addition, we license the JEN Frailty Index, a unique risk adjuster that predicts future need for long-term supports and services, and the JEN SMI Risk Indicator, a tool for predicting multiple hospitalizations among adults with serious mental illness. We also license ADIT™, a data integration tool specifically designed for health data, and iMMRS®, a secure web-accessible analytical tool with an intuitive interface that enables users to produce charts, tables, maps, and statistics on demand.

Milliman MedInsight

1301 Fifth Avenue, Suite 3800
Seattle, WA 98101
www.medinsight.milliman.com

By providing a range of services and solutions to successful community health exchanges and All Payer Claims Databases, Milliman has gained a deep understanding and skill set for these unique types of organizations.

National Center for Health Statistics

315 E. Montgomery Avenue
Spokane, WA 99207
www.cdc.gov/nchs

The National Center for Health Statistics (NCHS) provides statistical information that guides actions and policies to improve the health of the American people. As the Nation's principal health statistics agency, NCHS leads the way with accurate, relevant, and timely data. The NCHS exhibit will feature the latest publication and data releases.

Onpoint

254 Commercial Street, Suite 257
Portland, ME 04101
www.onpointhealthdata.org

Onpoint Health Data is an independent nonprofit organization based in Portland, Maine, offering a comprehensive set of end-to-end health data management and analytic services for the APCD community. Our data integration and reporting solutions, continuously enhanced over more than 20 years of operation, are designed to flexibly intake, standardize, and enrich a wide range of disparate data sources – from healthcare encounter and claims data to clinical and program registries. Our team of analysts use these solutions to support some of the nation's most advanced reform-centered initiatives, including the Dartmouth Institute's multi-state Atlas reporting, a national demonstration of the HealthPartners' Total Cost of Care measurement system, and the Vermont Blueprint for Health's practice- and geography-based profiles.

Onpoint's secure data access solutions include consumer portals, Business Intelligence systems, and analyst enclaves that offer a wide array of nationally recognized performance measures and benchmarks, including HEDIS, AHRQ, CMS, and ACO effective/preventive care measures. Our staff also develop custom population- and provider-based analyses and program evaluation – all backed by proven data expertise, rigorous quality assurance, and contemporary tools that enable faster start-up, efficient operations, and advanced analytics.

System13

1648 State Farm Boulevard
Charlottesville, VA 22911
www.system13.com

System13, Inc. provides services for data collection, warehousing, and analysis of state health data. Our expertise is in all aspects of patient level data. We have collected, analyzed, and reported on tens of millions of inpatient, ambulatory, and outpatient claims from hospitals, clinics, ASCs and practitioners in many different formats. Our state-of-the-art web software for data entry, correction, and reporting reflects our mission to "Improve the quality of health care by facilitating health care data analysis and sharing."

System13 offers quality solutions and services at affordable prices. We have provided services to VHI (Virginia) since 1993, to THCIC (Texas) since 1998, and to the Tennessee Department of Health since 2007. System13 would be a value-added asset for your organization's automation and reporting needs. We look forward to seeing you at NAHDO's 29th Annual Conference.
