

NATIONAL ASSOCIATION OF  
HEALTH DATA ORGANIZATIONS

# CORPORATE SPONSORSHIPS

## Opportunities and Pricing

The National Association of Health Data Organizations (NAHDO) believes in the power of partnerships and collaborative efforts. Corporate partnerships advance NAHDO's mission and priorities, and are essential for NAHDO members' health data organizations that need data tools and services to be responsive to their key stakeholders. NAHDO values what corporations can contribute as partners in improving the public's health and our health care delivery system.

Over the past decade, state health data agencies have expanded their reporting systems beyond hospital discharge data to include All-Payer Claims Databases. In order to support all state health data reporting systems, NAHDO has formed a collaboration with the University of New Hampshire's Institute for Health Policy and Practice, called the All-Payer Claims Database (APCD) Council.

To be more effective and streamlined, we have bundled corporate NAHDO sponsorship, APCD Council Learning Network sponsorship and annual conference support together. By providing sponsorship support, corporations are contributing to the overall mission of publicly available data for multiple uses.
