

# Collection and Use of Race and Ethnicity Data for Discharge Data Reporting Systems

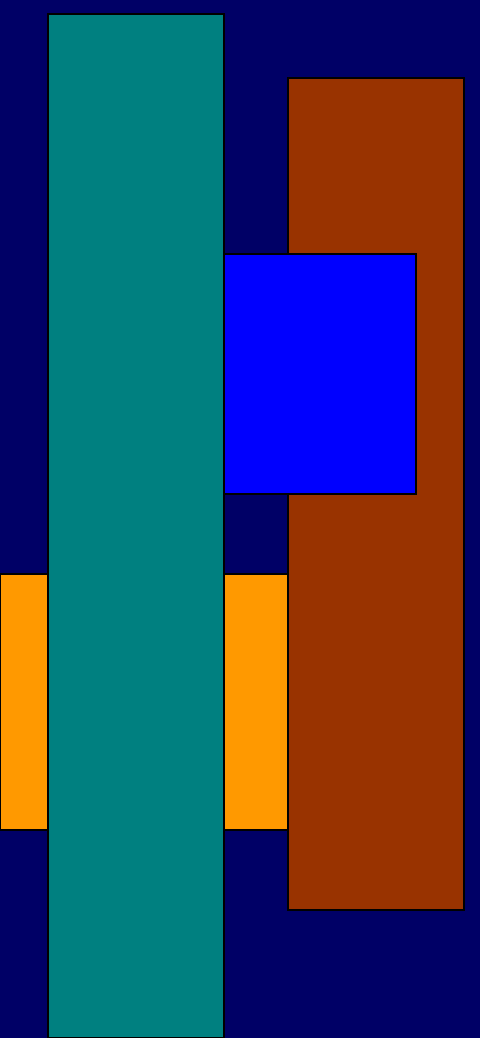

A NAHDO webinar supported by the CDC  
Environmental Health Tracking Program  
July 12, 2012

## Agenda:

- Roxanne Andrews, Agency for Healthcare Research and Quality
- Nicole Katz and Noell Stone, New Mexico Department of Health
- Jill Miyamura, Hawaii Health Information Corporation

## Discussion Questions

- Numerator/Denominator ---how to best define these for the different categories
- Sub Groups -issue of sub groups being so small that they run into a small numbers issue--- how to display?
- Unknown category—what to do with this field; at what point does it invalidate the conclusions?
- How to interpret multi racial—when does this become invalid, what is its utility?
